Mar 18, 2025	3	User info is achieved from database in home page, profile page and post details page, I set them as authors.
Mar 19, 2025	4	My events page UI modification. Edit profile page image upload completed.
Mar 20, 2025	4.5	Added a page displaying the author's details and nav to the chatting page. 
Mar 21, 2025	5.5	The chatting page worked. 

## Repo check-in:

This week, I focused on refining the details of the authors and improving the workflow of the chatting feature. I have completed most of the chatting functionality and am working on displaying the chat history for different users, which will depend on how much time I have. Next week, I plan to integrate the map feature and incorporate AI functionality. Additionally, I aim to enhance the post details to make the app feel more polished and realistic.
